**Notice of Possible Fee Increase on October 1, 2002**

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

*Reasons for Allowance*

1. Claims 13, 29-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art neither teaches nor suggests a method for manufacturing a fibrous cellulose sausage casing having a burst coefficient in the range 8.5 – 11.1, the burst coefficient being  $(b \cdot d \cdot n) / 100w$ , wherein b is the burst strength, d is the casing diameter, and w is the paper base weight, and an elasticity in the range 13.2 to 19.2 % of the starting size, the elasticity being defined as the capacity of the casing, after soaking in water at 40 °C for 10 minutes, to expand from an uninflated condition to one of inflation by 30 kPa air pressure, which method comprises:
  - a) forming a wet-strengthened manila based paper material, which paper is wet-strengthened by at least one strengthener selected from the group consisting of i) synthetic resin(s) of polyamide epihalohydrin type, ii) viscose, and iii) a combination of synthetic resin(s) of polyamide epihalohydrin type and viscose, into the shape of a tubing, the air-dry weight of which wet-strengthened paper is from 10 to 15 g/m<sup>2</sup>;
  - b) impregnating said tubing with viscose by presenting said viscose only to an outer surface of said tubing;
  - c) coagulating the viscose into cellulose by passing the impregnated tubing through at least one acid and salt bath; and
  - d) plasticizing the treated tubing.

Art Unit: 1772

The combination of the finished product limitations and the sequence of processing steps are unobvious over the prior art. Moreover, the criticality of the elasticity range and the overall superiority in burst strength have been demonstrated in Paper # 44 (filed 07/16/02).

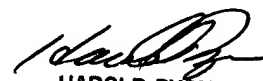

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
